

Beiben 1927 Tractor Trucks

---CEEC produced Beiben series

China **Beiben 1927 tractor truck** series equipped with WEICHAH 270HP engine, use Germany mercedes benz technology, the beiben NG80 type 1927 prime mover mainly used for towing bogie suspension semitrailer and lowbed semitrailer.

The **beiben 1927 tractor trucks** series has normally wheelbase 3800mm, which is special designed for African road condition, and the **4*2 north benz towing trucks** suitable for Algeria, Botswana, Congo, Djibouti and Togo countries. Recomend dimension as below:

- ★ CEEC provided Beiben 1927, 1929 tractor trucks prices are considerably lower than European, American and Asian competitors
- ★ Beiben trucks and Mercedes Benz trucks share many features such as HL7, HD7 and VL4 axles used in the Actros and Atego models.
- ★ The only Asian heavy duty truck company capable of providing the quality found among European and American manufacturers.
- ★ Beiben truck and benz trucks share familiar gearboxes - ZF and Fuller Fast.
- ★ Mercedes Benz and Weichai WD615, WP10 and WP12. They comply with Euro 2, 3 and 4; have displacements of 10 and 12 liters and HP of 270 to 480.
- ★ Bosch Common Rail injection, the Euro 2 with linear pump, motor and brake valve MAN Exhaust (Jack-Brake), among other qualities.
- ★ **CEEC TRUCKS 20 years' experience on beiben tractor trucks exporting.**
